PROFESSIONAL SUMMARY

I am a Software developer with a strong interest in building responsive, user-friendly web applications. I have been developing my skills through self-learning and personal projects using modern web technologies. I enjoy solving problems, learning new tools, and writing clean, maintainable code. I am eager to contribute to a development team, continue growing as a developer, and build software that delivers real value.

WORK EXPERIENCE

Software Developer Intern (Industrial Training) **July 2024 - October 2024**

Aibanc

- Assisted developers with coding tasks, including implementing minor updates, fixing bugs, and improving application features.
- Tested the company's mobile and web applications to ensure functionality, usability, and reliability.
- Verified payment, transfer, and account features to support reliable fintech services.
- Identified, documented, and reported software bugs and performance issues to the development team for resolution.
